

RESTORE AND RENEW PROGRAM

Bay Club's Restore and Renew program welcomes those who are either currently in treatment or have been in active treatment within the past two years. Membership includes complementary access to the Corte Madera gym during non-prime time hours (11:00 am – 5:00 pm) and access to Restore and Renew classes.

The Restore and Renew program will extend to 2 years after the last active cancer treatment, which includes chemotherapy and/or radiation and/or cancer-related surgery.

Membership will be exclusively for the individual. Due to high popularity among patients, we cannot extend this offer to family members or care-givers.

Please note that hormonal treatments beyond the cut-off date of 2 years post-cancer treatment, or those that are unrelated to cancer, will not re-qualify you for the Restore and Renew program.
